Packaging means RESPONSIBILITY FOR THE **ENVIRONMENT** Now also our small rolls of adhesive film with cardboard core

The environmental compatibility of products and packaging is increasingly determining sales opportunities on the market today.

Instead of using a plastic core as before, we make all of our adhesive film products **to recyclable cardboard cores.**

As with our packaging tape, we are now also making a further contribution with our small

Our WIHEDÜ film mailing bags are:

- Very tear-resistant, waterproof and opaque
- Single closure with permanent bonding
- Fulfill the friction coefficient specifications of DHL according to ISO 8295
- We focus on the environment:
This is why only bag bodies made of environmentally friendly polyethylene are used for these products. This is because it is recyclable, groundwater-neutral and does not release any toxic gases when incinerated.
