WIHE-lux PP adhesive tape

80% recycled plastic

Sustainable and environmentally friendly

Versatile Reliable

due to the very high recycling content
through the reduction of raw materials and a lower environmental impact due to less waste
e.g. hobby, office, warehouse and dispatch centres
excellent adhesive strength and tear resistance

Properties:

Carrier tape:	PP tape
Tape thickness:	28 my
Glue:	Acrylate, quiet
Running length:	66 m
Belt width:	50 mm
Total thickness:	approx.
49 my core:	3 inch

EDP no. 400.440 (without label)

EDP no. 400.444 (with label)

Show your commitment to a more sustainable future with this ribbon

WIHE-lux MAXXI-tape

PP adhesive tape MAXXI- tape **MAXXI efficient** **MAXXI sustainable** **MAXXI space-saving**

Properties:

Carrier tape: PP tape (PP=polypropylene)

Tape thickness:: 28 my (without adhesive)

Adhesive: Hotmelt or rubber adhesive (according to
expiring) Running length: 200 m

Width: 48 mm

WIHE-lux printed adhesive tape

Stand out and stand out with customised packaging tape Use the advertising space

Our most popular **carrier tapes**: PVC
adhesive tape*
PP adhesive tape*
Natron packing
tape
Ökopack (self-adhesive paper packing tape)

*Colour of the carrier tape:

all colours according to Pantone colour palette
possible

Dimensions:

Standard size= 66m x 50 mm
Other qualities, dimensions or machine
rollers on request

Glue:

Natural rubber for PVC adhesive tape
Acrylic adhesive for PP adhesive tape
Starch glue for Natron Natural rubber for Ökopack

Our ecopack, also
available as printed tape

Print:

One-, two- and three-colour positive and negative printing

Printing form:

Customised design according to your artwork,
including logos and screenings

Delivery quantity:

from 72 rolls up to large quantities of several pallets

Processing:

on manual unwinders and packaging machines

You will find suitable
dispensers on page 4

Our **Ökopack** is a self-adhesive paper packaging tape due to
increased environmental awareness
this band is becoming increasingly popular

The packaging advertises your company with this ribbon

Your advantages:

Environmentally friendly, as natural
product (core, tape and adhesive)

Disposal with cardboard possible

High tear resistance

High adhesive strength

Easy to tear off even without a
dispenser

Product data:

Running length: 50 m

Tape width: 50 mm

Colour: brown or natural
white

Adhesive: natural rubber
our EDP no. 580.201 PU
= 36 rolls

Our flexibility: unprinted or printed transparent, black, coloured Thickness: 12 - 35 my and pre-stretched film (7-10 my)

Nano stretch films

The use of high-quality plastic granules and several thinner film layers results in a much more elastic film with exceptional reliability even with sharp edges.

Advantages:

Despite the thinner film, higher strength, tear resistance and (up to 300%) are achieved.

Better protection during transport and storage thanks to higher puncture resistance

Reduced material consumption and less waste reduces costs and environmental impact.

Very good load stability, as the film moulds better to the cartons/goods. Food-safe (BRC-certified) and UV-resistant for 12 months

Comparison: consumption of conventional film and nanofilm

Examples:

Conventional 17 my film compared to 12 my nanofilm= **30% less consumption**

Elongation 150% compared to 250%= **30% saving**

Both invoices together= **Savings of up to 60%**

MINIGRIP® Pressure seal bag

- Bags made from **recyclable PE material** (polyethylene)
- Closure: Pressure closure system
- **3 red colour lines** (patented)
- **Reusable, resealable and recyclable**
- **Customisation possible**

Minigrip® Original **Standard and Maxi** - transparent PE:

- **Over 55 sizes** available, thickness **60 or 100 µm**
- 6 or 8 mm Ø **hanging hole**
- **Suitable for contact with food**
- Also available in 60µm with **three white labelling fields**

Minigrip® PCR **Recycled**:

- **At least 30% PE recycled material**
- with minimal blemishes
- **18 sizes**, standard thickness **60 µm**
- 6 or 8 mm Ø **hanging hole**
- Ideal for the fashion, textile, industrial and retail markets
- **Not suitable for contact with food**

Minigrip® Original **biobased** (certified):

- PE with plant-based film content
- **100% recyclable**
- 3 **green** colour lines
- **24 sizes**, thickness **50 µm**
- 6 or 8 mm Ø **hanging hole**
- **Suitable for contact with food**
- 3 white **labelling strips** in various sizes possible

Minigrip® Original **antistatic**, pink:

- **Protects the contents from static charge**
- Antistatic lasts **at least 12 months** after delivery
- **9 sizes**, thickness **80 µm**
- Ideal for electronic components and parts
- **Not suitable for contact with food**

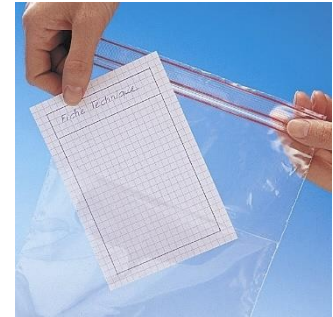

Minigrip® Original **black**:

- **Opaque and protection from UV light**
- **3 sizes**, thickness **60 µm**
- 8 mm Ø hanging hole
- Ideal for confidential content
- **Not suitable for contact with food**
- With **three white labelling fields**

Minigrip® Original **kangaroo pouch**:

- **With attached pocket to protect accompanying documents**
- Thickness **60 µm**
- **3 sizes**
- 8 mm Ø hanging hole
- Ideal for the medical sector (laboratories, dental technicians...)
- **Suitable for contact with food**
- Also available with labelling for medical devices (in 4 languages)

Minigrip® Original **UV protection**:

- UV protection (18 months from delivery)
- **4 sizes**, thickness **80 µm**
- Ideal for light-sensitive products
- **Not suitable for contact with food**
- With **three white labelling fields**

TOPMATIC® **Sliding seal bag**

- Bags made of highly transparent polypropylene (PP)
- **Reusable, resealable, recyclable**
- Easy to operate
- Available in **10 sizes**, thickness **70 my**
- Ideal for toiletries, air travel or clothing
- Also available with **bottom gusset** to increase capacity
- Also available with **metal glides**
- **Customised products possible** (printing, size, slider)

WIHE-mat - The new generation of pallet wrapping machines

986.201 Model OneWrap

Function:

Big in capability and small in price, these are the main features of our new "almost mobile" stretching system. Using a forklift truck, the machine can be positioned wherever "stretching is needed".

Easy to handle (from installation to operation) and highly convenient in terms of technical options, the machine is **practically** unbeatable.

Accessories:

987.050 Access ramp for One Wrap

The following is at the installation site of the machine: A 380 V, 50 Hz power connection

weitere Optionen
dieser Baureihe
auf Anfrage

Technical data:

- Electromechanical control
- Electrical connection 380 V / 50 Hz (other voltage on request)
- Disc diameter 1500 mm
- Load capacity 2000 kg
- Pallet dimensions 1000 x 1200 mm
- Tower height 2397 mm
- Maximum pallet height 2100 mm
- Rotation speed up to 14 rpm
- Max. Roller diameter 300 mm
- Machine dimensions/weight depending on model
- Manual and automatic operation
- Fixed stop / turntable stop in starting position
- Soft start and soft stop, inverter controlled
- Adjustable foot and head winding
- Automatic: Up and down winding (cross winding)
- Adjustable speed of the film carrier
- Height sensing by photocell
- Mechanically adjustable film tension

Other braking systems on request.

WIHE-mat - the new generation of pallet wrapping machines

OneWrapPlus

The OneWrapPlus offers the PLUS of OneWrap and ProWrap.

Function:

Greater robustness compared to the pallet wrappers commonly available on the market. High flexibility thanks to the wide range of options.

Comprehensive functionalities, always easy to use.

Options:

Drive-on ramps, installation frame, scales, photocell for dark packaged goods, cut-off system (for LP slides) **hold-down device**, **300% pre-stretch for LP film slides**

weitere Optionen

Technical data:

- Electromechanical control
- Electrical connection 230 V / 16 A
- Disc diameter 1650 mm
- Load capacity 2400 kg
- Pallet dimensions 1000 x 1200 mm
- Maximum pallet height 2200 mm
- Rotation speed up to 12 rpm
- Max. Roller diameter 300 mm
- Machine dimensions/weight 535 kg
- Manual/automatic operation
- Fixed stop / turntable stop in starting position
- Soft start and stop, inverter controlled
- Adjustable foot and head winding
- Height sensing by photocell
- Mechanically or electromagnetically adjustable film tension

WIHE-mat - Horizontal wrapping machine

986.803 Model Neleo 50

Function:

Packaging, collecting and protecting elongated products. For packing strips, aluminium bars and shelves.

Accessories:

Double automatic cutting system Table with gravity rollers

The following is required at the machine installation site: 230 V 6 bar pressure (for version with cutting system)

WIHE-mat - Battery-powered friction welder for strapping with plastic strap

980.075 Model OR-T 270 (incl. battery)

The most modern type of manual strapping:

for PP and PET strapping

Technology:

- Lightweight but robust design for user-friendly operation and convenient transport from one packing station to another
- Proven friction weld fastener, electrically operated by rechargeable battery, for secure connection of the strap ends
- High tear resistance of the fastener
- Up to 800 closures per load, depending on belt quality, tension force and packaged goods
- Charging time 50-65 minutes
- Rechargeable battery 18.0 V-4.0 Ah Li-Ion
- High clamping force, infinitely adjustable, from (0) 400 to 2500 N
- Clamping at the touch of a button
- Colour touch display
- Belt widths: 13 - 16 mm
- Tape thickness: 0.5 - 1.0 mm
- Dimensions: L x W x H 367x149x135 mm
- Weight: 4.0 kg

Weitere Geräte aus der ORT-Reihe:

- 980.069 OR-T 55
- 980.074 OR-T 140
- 980.076 OR-T 460
- 980.073 OR-T 670

Bandbreiten:
• von 10 – 32 mm

Accessories:

981.37	Rechargeable battery - Bosch ProCore AMP 18.0 V 4.0 Ah LI-ION
981.38	Charger - Bosch GAL 18V-40
590.520	Roll-off trolley FG-09 galvanised, with brake
590.411	Roll-off trolley FG04 painted
590.518	Roll-off trolley H-84

WIHE-mat - Battery-powered friction welder for strapping with plastic strap

995.204 Model GT-One (incl. battery and charger)

The most modern type of manual strapping:

for PP and PET strapping

Weitere Geräte aus dieser Reihe:

- GT_SMART
- GT-XTREME
- GT-MAX

Technology:

- Simple tape insertion: Tape on tape
- One-handed operation: clamping, welding and sealing
- Proven vibration lock
- Sealing strength: 75 - 85 % of the breaking load of the strap used
- Belt widths (adjustable): 10-16 mm
- Tape thickness (adjustable): 0.5 - 1.1 mm
- max. strapping tension: 2,750 N / 280 kg
- max. clamping speed: 15 m/min
- Number of strappings with one battery charge: 150 - 350
- Quick charge: 22 min.
- Battery: 14.4V-3.0AH-Li-Ion battery Sanyo
- Charger: 220 V Europe
- Dimensions of the GT-ONE battery-powered clamping and sealing device: Length: 33.0 cm x width: 10.5 cm x height: 16.5 cm
- Weight (incl. battery): 3.75 kg

Accessories:

590.411 Roll-off trolley FG 04

WIHE-mat - Battery-powered friction sealer for strapping with plastic tape

995.210 Model VIPER (incl. battery and charger)

The most modern type of manual strapping:

for PP and PET strapping

Technology:

- Simple tape insertion: Tape on tape
- Operation via high-resolution colour display
- TFT colour display/capacitive touchscreen
- Operating modes: Automatic/semi-automatic/manual
- 8 settings can be saved
- One-handed operation: clamping, welding and sealing
- Proven vibration lock
- Sealing strength: 75 - 85 % of the breaking load of the strap used
- Belt widths (adjustable): 9-16 mm
- Tape thickness (adjustable): 0.5 - 1.1 mm
- max. strapping tension: 2,750 N / 280 kg
- max. clamping speed: 15 m/min
- Number of strappings with one battery charge: 150 - 350
- Quick charge: 22 min.
- Battery 18V-3.0AH-Li-Ion battery Makita
- Charger: 220V/50Hz
- Dimensions of the VIPER battery-powered clamping and sealing device Length: 33.0 cm x width: 10.5 cm x height: 16.5 cm
- Weight (incl. battery): 3.9 kg

Weitere Geräte aus dieser Reihe:

- GT-SMART+
- GT-ONE+
- GT-XTREME
- GT-MAX

Accessories:

590.518	Roll-off trolley H-84
590.520	Roll-off trolley FG-09

WIHE-mat - Semi-automatic strapping machine for PP straps

980.104 Model EXS 303

A powerful small semi-automatic strapping machine that is really big in the:

Flexibility:

- Mobile compact design, easy to use anywhere
- Height-adjustable, adaptable to packing table height (750 mm to 970 mm)
- Strip width: 5 -, 12 - or 15 mm
- Tape thickness: 0.45 - 0.7 mm
- Core dimension: 200 mm diameter
- Carton size: almost all sizes from 60 mm wide and 30 mm high
- Electronic stepless strap tensioning, for edge-protecting securing without deformation, with a firm hold (max. tensile force 450 N)
- Infinitely adjustable belt feed: exact belt feed depending on the box size

Security:

- Simple and reliable operation
- CE test mark

Technology:

- Housing made of high-quality sheet steel, painted
- Worktop stainless steel
- Dimensions: 546 mm long, 765 mm wide
- Weight 46 kg
- Operating voltage: 220 V/50 Hz, 0.2 KW
- Electronic print control and mechanical functional elements
- Thermostat-controlled, fixed belt sealing, sealing time 1.5 seconds
- Simple and fast changeover to other bandwidths

WIHE-mat - Fully automatic strapping machine for PP strapping

980.251 - Model WHU 200E

other frame sizes on request

Frame size:

600 x 850 mm (height x width) Electrical connection: 230 V = standard Belt width: 12 mm = Standard Inner core Ø: 200/190 mm= Standard

Function:

Thanks to the 230 V connection and the compact mobile design, the fully automatic machine can be used anywhere in your business.

The automatic filling of the belt supply magazine ensures high functional and operational reliability.

Precise components of the mechanical functional elements in conjunction with the latest PLC technology ensure optimum functional sequences.

This achieves a high strapping cycle with a frame size of 600 x 850 mm.

Standard equipment:

- PLC control 230 Volt
- Electrically adjustable belt tension
- Maintenance-free, robust mechanical belt tensioner, infinitely variable
- 2-way operation: hand and foot switch
- Enormous advantage for bulky or long parcels
- Castors in the worktable

WIHE-mat - Fully automatic strapping machine for PP strapping

980.141 - Model WHU -158-PLUS

other frame sizes on request

Frame size:

600 x 850 mm (height x width) Belt width:
12 mm = standard inner
core Ø: 200/190 mm= Standard

Function:

- Internal belt roller
- Strapping cycles: max. 35/min
- Belt tension: 5-65 kg
- Folding control panel
- Automatic belt insertion
- Electronic belt tension control

Standard equipment:

- Mains connection: 230V/50Hz 0.75KW
- 3-way operation: hand and foot switch, sensor
- Machine dimensions (WxDxH): 1130 x 619 x 1535 mm
- Weight: 167 kg

WIHE-mat - Carton sealing machine

983.006 model S 8 / 983.011-Model S 8/4

Function:

The **S 8** and **S 8/4** carton sealing machines use self-adhesive tape (U-seal) to seal the bottom and top flaps of shipping cartons of the same format.

The carton is driven sideways.

Conversion to other carton formats is quick and easy. The machine is ideal for narrow and flat cartons.

Carton dimensions:

for S 8/4

min. max.

Length: 150 mm - infinite

Width: 100 mm - 500 mm

Height : 60 mm - 500 mm

Carton dimensions:

for S 8

min. max.

Length: 150 mm - infinite Width:

120 mm - 500 mm Height: 120

mm - 500 mm

Description:

- Adhesive tape unit K11 for 50 mm tape width (tab length 50 or 70 mm) **(only for S 8)**
- for cartons up to max. 40 kg
- Tolerance compensation for width and height
- Suitable for adhesive rolls up to 990 m
- Height-adjustable between 530 and 780 mm (height of roller conveyors)
- Rule of thumb capacity: 1000 : box length in cm + 30 cm
- Side pressure rollers
- Carton height adjustment via spindle
- Carton width adjustment via spindle
- Option at extra cost: K 12 adhesive tape unit for 75 mm tape width **(only for S 8)**

Technical data:

- 380 V (220 V to order) Supply cable 1.5 m
- 2 motors 0.14 KW each, motor protection switch, CE mark
- Exploded view is included. This means that 95% of any repairs can be carried out by the customer.
- Small service package included

WIHE-mat - Carton sealing machine

983.021 model SK20

Function:

The **SK20** carton sealing machine uses self-adhesive tape (U-seal) to seal the bottom and top flaps of shipping cartons of the same format.

The carton is driven at the top and bottom.

Conversion to other box formats is quick and easy.

Upper and lower conveyor belts allow difficult carton formats to be sealed.

Technical data:

- 380 V (220 V to order)
Supply cable 1.5 m
- 2 motors 0.14 KW
each, motor protection
switch, CE mark
- Exploded view is included.
This means that 95% of any
repairs can be carried out by
the customer.
- Small service package
included

Carton dimensions:

min. max.

Length: 150 mm - infinite Width:

140 mm - 500 mm Height: 110

mm - 500 mm

Description:

- Adjustable adhesive tape unit
- for cartons up to max. 40 kg
- Tolerance compensation for height
- Suitable for adhesive rolls up to 990 m long and 50 mm wide
- Height-adjustable between 480 and 820 mm (height of roller conveyors)
- Capacity depends on the carton size Formula: $1000 / \text{carton length in cm} + 30 \text{ cm}$
- Side pressure rollers for overfilled cartons
- Carton height adjustment via spindle
- Carton width adjustment by means of swivelling lock

WIHE-mat - Carton sealing machine

983.030 model SR20

Function:

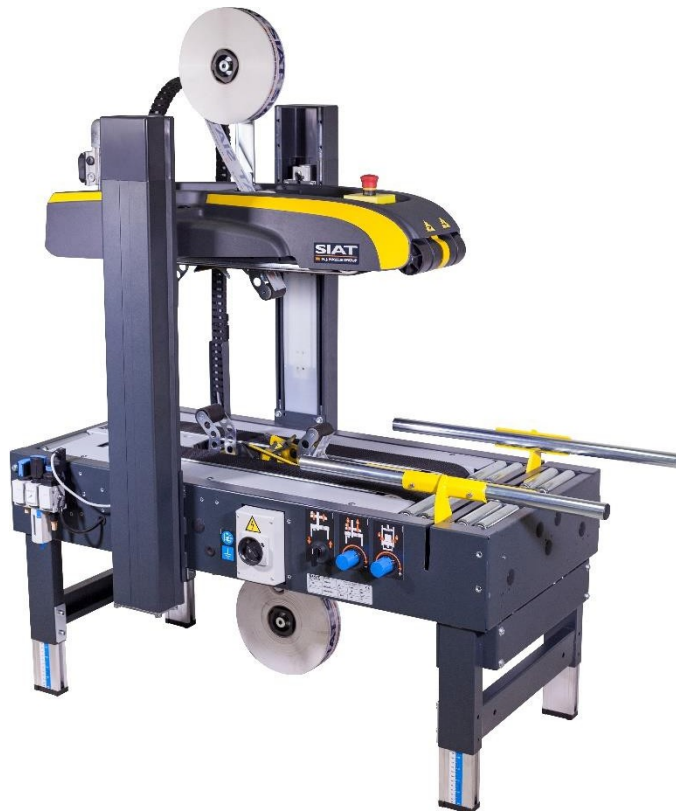

The **SR20** carton sealing machine automatically adjusts to the respective carton format and seals the top and bottom carton flaps with self-adhesive tape (U-seal).

Upper and lower conveyor belts allow difficult carton formats to be closed. The pneumatic centring device holds the carton during filling.

Ideally suited for underfilled cartons. The **SR20** requires a compressed air supply with at least 4 bar pressure.

Technical data:

- 380 V (220 V to order)
Supply cable 1.5 m
- Motors 0.18 KW
each, motor
protection switch, CE
mark
- Exploded drawing is
included. This means
that up to 95% of all
repairs can be carried
out by the customer.
- Small service
package included

Carton dimensions:

min. max.

Length: 150 mm - infinite Width:

140 mm - 500 mm Height: 110

mm - 500 mm

**Other cardboard
formats on
request.**

Description:

- Adhesive tape unit K 11 with max. 50 mm width (tab length 50 or 70 mm)
- for cartons up to max. 40 kg
- Tolerance compensation for width and height
- Suitable for adhesive rolls up to 990 m long and 50 mm wide
- Height-adjustable between 480 and 820 mm (height of roller conveyors)
- Rule of thumb capacity: 1000 : box length in cm+ 30 cm
- Height and width are adjusted pneumatically

WIHEDÜ - Technical Service

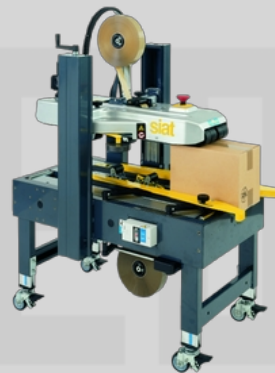

Our comprehensive customer service:

Our company philosophy is based on an old tradition. Willy Heckmann is there for its customers, i.e. we you our support and assistance in realising your packaging requirements according to your needs. That's why you need us. We will do our best to satisfy you. We are committed to long-term business relationships that provide benefits, reliability and trust for both sides.

Our repair and maintenance service:

We provide a nationwide service for our semi-automatic and fully automatic packaging machines. Our locations in the north, centre and south of the country guarantee prompt support.

Our maintenance contracts:

We also offer maintenance contracts for all machines, which ensure that the systems purchased from us are also professionally maintained.
